**With MTM Engineering's  
Higher Level Apprenticeship  
Programme**

An abstract background image featuring a network of glowing lines in shades of green, yellow, and purple, set against a dark background. The lines are blurred and have a bokeh effect, creating a sense of depth and movement.

**Be The Future.  
Your Journey Starts Now.**

# Build Your Future

**Embark on an empowering journey with MTM Engineering as you kick-start your career.**

As a leading specialist electrical contractor, we are renowned for delivering the critical path in power and communication services for mission-critical projects across Europe and beyond. Our reputation is built on innovation, reliability, and a commitment to excellence. We are always on the lookout for dedicated and enthusiastic individuals to join our team.

At MTM Engineering, we bring extensive expertise to diverse industries, including data centres, pharmaceuticals, renewable energy, power generation, and critical infrastructure. Our comprehensive services include pre-construction design co-ordination, containment solutions, cable installation, medium and low voltage terminations, busbar and switchgear installations, and industrial-scale ICT (Information, and Communications Technology).

## Ready to jump-start your career?

Our apprenticeship programme offers a pathway to growth, combining hands-on experience with structured training to help you achieve a nationally recognised qualification. Designed for ambitious school leavers, this programme is more than just a job – it's a paid opportunity to gain practical skills and academic knowledge while earning a complete salary. At MTM Engineering, your potential is limitless!

# Shape Your Career with an MTM Engineering Apprenticeship

MTM Engineering apprenticeships pave the way for shaping not just your career but also the future of our business. Whether you aspire to be a quantity surveyor or an electrical engineer, our apprenticeships are your pathway to unparalleled growth and skill development. From Level 5 apprenticeships to degree-level expertise, our meticulously structured training, insightful reviews, and open conversations pave the way for your professional progression.

## The MTM Experience

Embrace a family-friendly culture; every day at MTM Engineering is an opportunity to step into an inspirational environment where mentorship and nurturing are integral. Beyond ongoing training, tackle real-life business challenges within our projects. Your energy and unique perspectives will have a genuine impact, building the confidence and ongoing learning opportunities essential for your success.

Guided by our core values of **People**, **Integrity**, **HSEQ**, **Schedule**, and **Innovation**, we foster an environment where your contributions matter.
