

QUALITY POLICY

MTM Engineering

MTM Engineering provides a specialised and expert industrial cable installation and termination service across Europe. Sectors include wind farms, data centres, power stations, hospitals, pharmaceutical and manufacturing facilities.

We understand the dynamics and pressures of the construction industry and are committed to pursuing the latest technologies and having the best equipment available to ensure projects are completed in a safe and timely manner whilst providing a service of the highest quality to our customers.

The company is committed to the concept of continuous improvement and to this end we have implemented a Quality Management System in accordance with the requirements of the international standard ISO 9001:2015. Quality objectives are established and regularly reviewed in the context of continual improvement and the company's ethos of Forward Thinking.

Our people, the MTM Engineering team, are core to achieving the intentions of this policy and its related objectives. Training, development and continuous communication are key processes within our operations. We are committed to continuously improving the skills of our team to ensure the continuous improvement of our services.
